

FACE TAT

01. MEMO TO THE MAN

that was that
you know
what to do
everybody
looking at the ring
they dont know what to think
the meds fell in a pit, and that was it
on the outs
future, snap to thirds
maybe friday
tvs on the beach
i hope that it is deep
my head is so slow
the moon is low
got it back
touch it
burn the disc
make a circle
take me off the list
my clothes dont even fit
reflection is gone
i could be wrong
by the pool
panic
we should leave
early morning
falling from the trees
the wall is in my eye
the birds are on time
cancel if you can
you found the memo to the man
it rained so i forgot about it
now my ears are ringing
step, step, step, watch where i step
cancel if you can
you found the memo to the man
who's the first caller?
my ears are ringing

NICK REINHART - guitar
GREG SAUNIER - drums
ZACH HILL - drums, vocals, keyboard, etc.

02. THE PRIMITIVES TALK

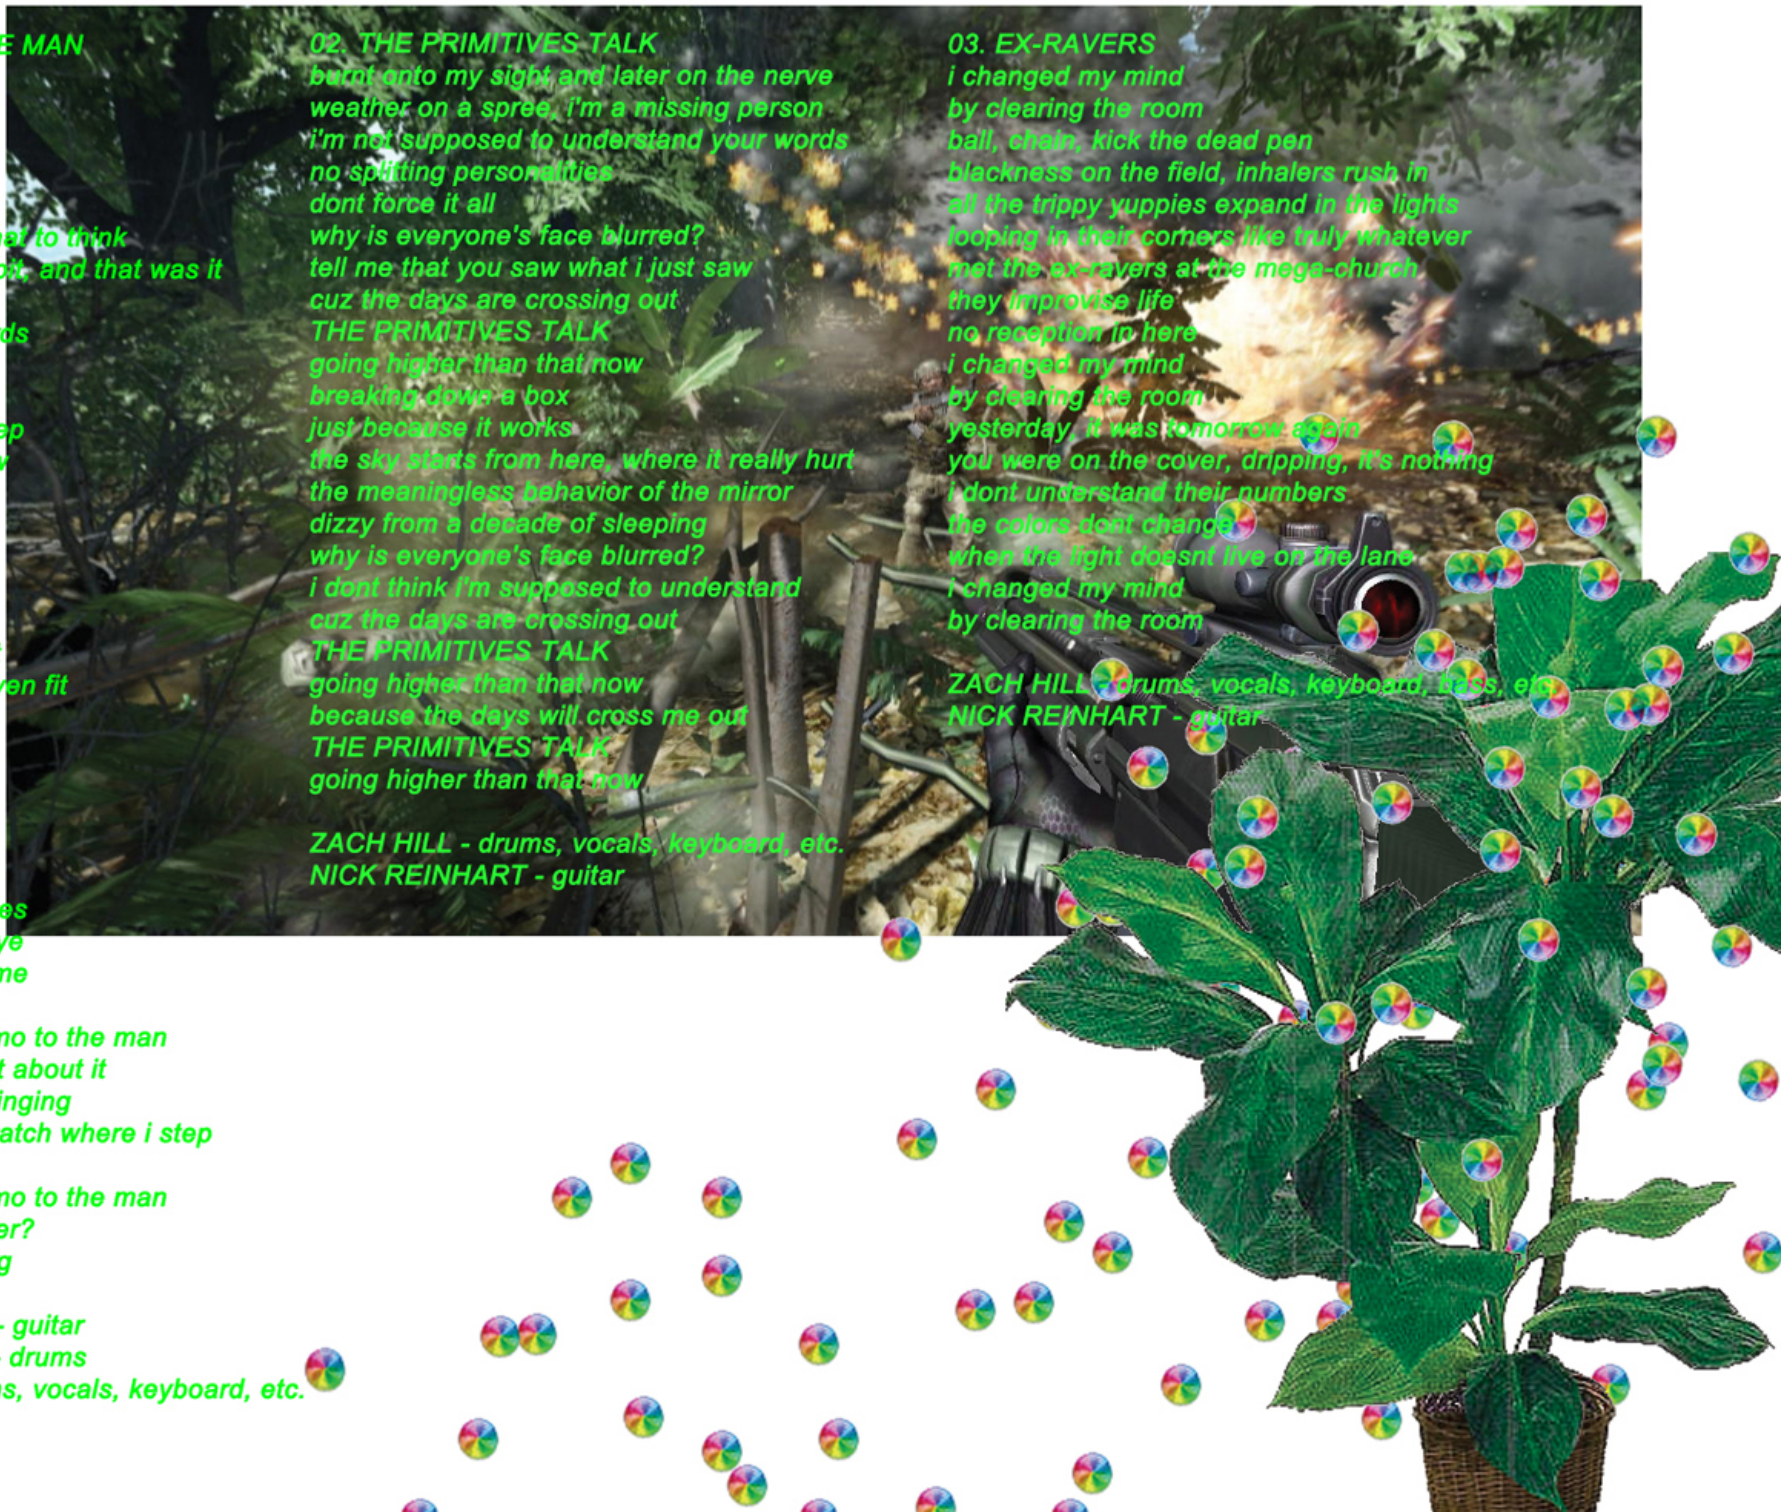

burst onto my sight and later on the nerve
weather on a spree, i'm a missing person
i'm not supposed to understand your words
no splitting personalities
dont force it all
why is everyone's face blurred?
tell me that you saw what i just saw
cuz the days are crossing out
THE PRIMITIVES TALK
going higher than that now
breaking down a box
just because it works
the sky starts from here, where it really hurt
the meaningless behavior of the mirror
dizzy from a decade of sleeping
why is everyone's face blurred?
i dont think i'm supposed to understand
cuz the days are crossing out
THE PRIMITIVES TALK
going higher than that now
because the days will cross me out
THE PRIMITIVES TALK
going higher than that now

ZACH HILL - drums, vocals, keyboard, etc.
NICK REINHART - guitar

03. EX-RAVERS

i changed my mind
by clearing the room
ball, chain, kick the dead pen
blackness on the field, inhalers rush in
all the trippy yuppies expand in the lights
looping in their corners like truly whatever
met the ex-ravers at the mega-church
they improvise life
no reception in here
i changed my mind
by clearing the room
yesterday, it was tomorrow again
you were on the cover, dripping, it's nothing
i dont understand their numbers
the colors dont change
when the light doesnt live on the lane
i changed my mind
by clearing the room

ZACH HILL - drums, vocals, keyboard, bass, etc.
NICK REINHART - guitar

05. GREEN BRICKS

GREEN BRICKS
hey i dont know where i'm located
but i'm up for an initiation
GREEN BRICKS
and the coast is so clear
that i'm visibly shaking
GREEN BRICKS
if i dont get blocked
im gonna head downstairs
GREEN BRICKS
and i got banished for a while
but nobody cared
because
GREEN BRICKS
whenever you get back
come on, make it in 3D
for me
GREEN BRICKS
GREEN BRICKS
now i've got some vague disorder
where everything is laminated
i hate it
what?
GREEN BRICKS
and its under a new ownership
but they all live here
next year

ZACH HILL - drums, vocals, bass, electronics

06. HOUSE OF HITS

whats his face, with the house
they're goin in, never coming out
there is a vision that needs to be managed
that is insane, but that is average
i dont know how
WHOS ON THE FLOOR
but they're sending information right now
whats his face, with two faces
HE'S ON THE FLOOR
well, they're burning a witch, off the grid,
i wanna trade places
that is a sound that doesnt wanna finish
what a nightmare, you were in it
now my witness is dead
they still party to the grave
no-one in this house is safe
strobe light all night
clean it up, edit
you forgot to remember to get it
you forgot to remember to forget
in the smoke, there is an image
you didnt love what was in it
nothing to rehearse in the wild
i need to visit myself as a child
under the clouds, giving directions
they say i'm in the wrong section
now my witness is dead
they still party to the grave
no-one in this house is safe
strobe light all night

ZACH HILL - drums, vocals, electronics, etc.
NICK REINHART - guitar

08. BURNER IN THE VIDEO

you're not leaving the property
it doesnt look that real to me
videos with no windows
oblivious
thats the problem
no party at the pyramid
the new friends
the heat
where is your parrot and that skeleton?
normally
you'd be
in the bushes at the park on c
burner in the video
cant you tell the shadows grow
over where the dumb dream
paranoia in the wing
im not leaving the property
it doesnt look that real to me
videos with no windows
oblivious
thats the problem
no party at the pyramid
oblivious
oblivious

ZACH HILL - drums, vocals, keyboard, electronics, etc.
ROBBY MONCRIEFF - guitar, keyboards, programming

09. DIZZY FROM THE TWINS

creeping in the basement
deforming the whole decade
this was the play
im focusing
on something strange
they're in a game
no-one sees them
dizzy from the twins
this was my cave
then i got away
the next
stop following
the twin
im focusing
on something strange
this is the game
stay in the lanes
this was my cave
then i got away
the next day
death defying place
of nonsense
dizzy from the twin

ZACH HILL - drums, vocals, bass, keyboard, etc.
NICK REINHART - guitar

11. TOTAL RECALL

the garden is marked
on chinese time
still the lapse from dark to dark
will follow up
people say it just to say it
pushing their pianos through the tunnel
a total recall
within gross public
that is totally vital
i just fell into it
storm like a buzz on the flats getting its volume back
message is mixed, no fingers there's no fist, who is it?
surrounded all day
all dots, it fits
an isolated incident
interpreting hits
id like to lay down
take it from the hands
cut the power to the land
a total recall
within gross public
that is totally vital
i just fell into it
a total recall
within gross public
that is totally vital
you just fell into it
storm like a buzz on the flats getting its volume back
message is mixed, no fingers there's no fist, who is it?

13. SECOND LIFE

take me with you
take me with you
take me with you
take me with you
she will take you when she leaves
turn your thoughts to energy
its satanic how she breathes
summer freezes when she speaks
she will take you when she leaves
turn your thoughts to energy
the black hat she lives beneath
she needs no identity
turning all your blood to bleach
i love when she shatters me
she's so violent, i cant see
she will take me when she leaves
she will put you underground
turn the ocean upside down
she will take you when she leaves
turn you into energy

ZACH HILL -
vocals, drums, guitar, bass, theories
